PROFESSIONAL SUMMARY

Result-oriented Software Quality Assurance (SQA) Engineer with hands-on experience in manual and automation testing of web and API systems. Skilled in ensuring high-quality releases through functional, regression, and smoke testing, defect lifecycle management, and Agile/Scrum methodologies. Proficient with Selenium, TestNG, Postman, Newman, and Jira, and experienced in developing scalable automation frameworks with Java.

PROFESSIONAL EXPERIENCE

IT Executive & QA Engineer | March 2025 – Present
RK Software (Bangladesh) Limited | Dhaka, Bangladesh

• Performed end-to-end testing of full-stack systems including web UIs and backend logic.
• Designed and executed manual test cases (functional, UI/UX, regression) ensuring product stability and performance.
• Conducted RESTful API testing using Postman and automated with Newman, producing detailed HTML reports.
• Managed the complete defect lifecycle and coordinated fixes and retests for timely releases.
• Contributed to two national-level government projects (DNCC & CCC Revenue Management Systems), ensuring system stability in live environments.

TECHNICAL SKILLS

Testing Tools:	Selenium WebDriver, TestNG, Postman, Newman, JMeter, Allure Report, Jira, TestRail
Testing Methodologies:	Agile (Scrum), SDLC, Functional, Regression, Smoke, UAT, Defect Tracking
Programming & Automation:	Java (Primary), Python, JavaScript, OOP
Version Control:	Git, GitHub
Databases:	SQL, MySQL

EDUCATION

B.Sc. in Computer Science & Engineering (CSE)
Daffodil International University — Graduated: 2023

CERTIFICATIONS

• SQA: Manual & Automated Testing – ostad.app (Covering SQA methodologies, Selenium automation, and API testing principles.)

PROJECTS

SauceDemo Automated Testing
GitHub: https://github.com/rizbiislam/saucedemo-test
• Developed an end-to-end test automation framework using Selenium WebDriver and TestNG.
• Implemented the Page Object Model (POM) and Allure Reporting for visual documentation.
• Automated complete eCommerce workflows: login, product selection, cart operations, and checkout validation.

Demo Evershop (API & Web Automation Testing)
GitHub: https://github.com/rizbiislam/Api-Testing-Demo-evershop | https://github.com/rizbiislam/Demo-Evershop
• Automated API testing using Postman & Newman, generating detailed HTML reports.
• Built a scalable Selenium WebDriver + TestNG automation framework following the POM pattern.

CORE STRENGTHS

Automation Framework Design | API Testing | Manual Testing | Agile & Scrum | SDLC/STLC | Regression & UAT Testing | Defect Tracking & Reporting | Continuous Improvement Mindset
